

Brunton joins Csoft Corporation

Orion Group & Csoft establish joint sales & marketing relationship

August 5, 2009 – Csoft Corporation, San Jose, Calif., and Orion Group Software Engineers, Inc., South Bend, Ind., announce the appointment of Kevin Brunton as Vice President and Sales Manager for Csoft Corporation, developer and provider of the megaWare™ suite of warehouse management, freight management and shop floor data collection software.

In a joint relationship between Csoft Corporation and Orion Group, Brunton will serve dual roles with the two companies. For Csoft, he will take on primary sales development and channel management responsibilities, working with resellers for both Csoft and SYSPRO to present Csoft software. SYSPRO, based in Costa Mesa, Calif., offers products that provide complete control over the planning and management of all facets of business including accounting, manufacturing and distribution operations in a variety of industries across the globe. In addition, Brunton will remain based in the South Bend area and will continue to work with Orion Group in his capacity as Enterprise Solutions Sales Consultant selling SYSPRO Enterprise Software. Brunton joined Orion Group in 1987. For the last six years, he has been solely focused on providing sales and consulting services around SYSPRO implementations. He is a graduate of Purdue University with a bachelor's degree in computer science.

Bryan Krenzin, Csoft president, said, "Kevin brings a wealth of SYSPRO experience to Csoft to further solidify the relationship between our two companies. By bringing Kevin on board, my team and I will be able to refocus on product development and customer implementations."

Doug Wileman, Orion Group president, said, "This joint arrangement will allow Orion Group and Csoft to improve on our core strengths and present the tightly integrated ERP and warehouse management solution that our customers need. Csoft will be able to increase its market penetration while improving its implementation and support team with Orion Group."

About Csoft Corporation

Csoft Corporation is the developer of the megaWare™ suite of software for warehouse management. megaWare uses proprietary VSE™ engine technology, allowing Csoft to deliver the most flexible, configurable, scalable and affordable software in the supply chain / automatic identification market. Csoft delivers solutions for companies whose requirements range from simple pick, pack and ship with UPS integration to those that need fully automated and directed pick, put away, replenishment and labor management.

About Orion Group

Since 1985, Orion Group has helped clients improve their profits and productivity through the use of technology. Orion Group's full array of services include enterprise software solutions, network and hardware consulting and custom software development. Orion Group is a valued SYSPRO Partner providing sales, implementation and support to SYSPRO customers primarily in Indiana, Ohio and Michigan. Orion Group is also a member of the SYSPRO Partner Council.
